Professional Summary

I am a Web Developer transitioning from the Educational Professional setting. I am highly talented individual with strong analytical skills and a desire to work as a Jr. Web Developer. Hard-working and Self-motivated full stack developer with knowledge and proficiency in JavaScript, HTML , CSS, and mobile responsive web development, as well as strong skills and ability to learn new frameworks and communicate within teams. I have done work collaborating with talented people to create digital products demonstrating skills in both front and back-end development. I have worked on producing high quality responsive websites and exceptional user experience for further insight into my experience please visit:
